## A BY-LAW

*For the Authorization and Regulation of Gas Works in the City of New Westminster, and for other purposes relating thereto.*

THE MAYOR and Council of the Corporation of the City of New Westminster, hereinafter called the "Corporation," enact as follows:—

1. The "British Columbia Construction Company," a body corporate, having its head office at Victoria, in the Province of British Columbia, and hereinafter called the "Company" is hereby authorized, subject to the provisions hereinafter contained, to erect, construct, maintain, and operate gas works within the limits of the said City of New Westminster, and to lay down, relay, connect, disconnect, and repair all pipes along, through and under the streets, alleys, grounds, and thoroughfares of the said City that may be necessary for supplying gas to the consumers thereof.

2. It shall not be lawful for the Company to exercise any of the powers by this By-Law conferred until after the Company shall have duly entered into a bond to the Corporation, in the sum of one thousand dollars as liquidated damages, with sureties conditioned for the due performance by the Company of the agreements, provisos, terms, and conditions hereinafter contained, as regards the manner of constructing the said works and the operation thereof, including the supplying of gas of the kind and quality and in the manner hereinafter mentioned, and the lighting of the streets of the said City as hereinafter provided, and until after the said bond shall have been delivered to the Corporation and duly approved of by a resolution of the Mayor and Council thereof.

3. The Company shall, within nine months after the passage of this By-Law, establish gas works and buildings adequate to the supply of the said City, and lay mains adequate to the supply therefrom of gas to the lamps and to all persons and corporations hereinafter mentioned; and in case the same shall not be established and laid within the period, or in case of the breach of the conditions of the said bond, all the powers hereby conferred shall, at the end of the said period or upon such breach, cease and determine, and this By-Law may be repealed.

4. The Company shall, subject to the provisions hereinafter contained, at their own expense, introduce into and through the walls or enclosures of the house, office, shop, establishment, residence or building of any person or persons or corporation requiring the same, a proper service pipe with stop-cock, and furnish a gas meter, if required, for accurately measuring the supply of gas to any such person, persons, or corporation, at a fair market price, not exceeding fifteen dollars, and shall thereafter keep such service pipe and gas meter in proper order and repair, and shall supply to every such person, persons or corporation an adequate amount of gas of good quality. Provided it shall not be compulsory on the Company to furnish or introduce the same as aforesaid into any house, office, shop, establishment, residence, or building, at a distance of more than fifty feet from any of their mains, except as hereinafter provided. Provided that any person or corporation requiring a supply of gas may, if the place wherein such gas is required be distant more than fifty feet from any main, require the Company to supply such service pipe, stop-cock, and meter for the price above mentioned, and a sum not exceeding one dollar a foot for each foot of the distance in excess of such fifty feet. Provided that any such person, persons or corporation shall have the right to furnish such service pipe and gas meter at the expense of such person, persons or corporation, whatever such distance may be, and when so furnished such pipe shall be connected by the Company with their main, at a cost of not more than two dollars, and any person, persons or corporation so furnishing the same, shall thereupon be entitled to the same rights as regards the Company as if they had furnished the same.

5. The Company agrees with the Corporation to supply gas for the lighting of the public buildings, streets, alleys, and thoroughfares of the said City by the means of lamps, to be furnished by the Corporation, the same to be situate at such places as may have been fixed by a resolution of the Mayor and Council thereof, before the passage of this By-Law; and the Company shall, during the period of five years next, after the construction of the said works and mains, at their expense, saving only as is herein otherwise expressly provided, provide all things necessary for the supply of gas to the said lamps, and accordingly continuously supply the same, temporary stoppage from unavoidable accidents only excepted, and at all times during the said period shall cause the same to

be duly lighted and extinguished at proper hours of the evening and morning, and clean and keep in repair all the said lamps, excepting such damage, if any, as may be caused by any person not being in the service of or connected with the Company, and the Corporation agrees to pay the Company the sum of three dollars per month for each of said lamps during the said period.

6. The location of said lamps may, at any time, and from time to time, be changed by the Corporation at the expense of the Corporation by resolution of the Mayor and Council thereof, and thereupon and upon the removal by the Corporation of any of the said lamps or the furnishing by the Corporation of new lamps, the Company shall supply gas at the place or places provided by any such resolution in like manner as if the same had been mentioned in the said first mentioned resolution. Provided that it shall not be compulsory on the Company to supply gas to any lamp situate at any place not being named in the said first mentioned resolution, which shall not be situate within fifty feet from any of their mains.

7. The gas mentioned in this by-law shall mean gas manufactured from coal, and of at least sixteen candle-power; and the Company shall in no case charge more for the gas they supply than four dollars per thousand cubic feet of gas.

8. The Company may, under the superintendence and subject to the control of the Board of Works or of the proper person or persons having the management of the streets and bridges within the City aforesaid, open and break up the soil and pavement, and any sewers, drains or tunnels within or under such streets and bridges, and lay down and place within the same limits, pipes, conduits, service pipes and other works, and from time to time repair, alter and remove the same, and also make any sewers that may be necessary for carrying off the washings and waste liquids which may arise in the making of the gas; and for the purposes aforesaid may remove and raise all earth and materials in and under such streets and bridges; and they may in such streets erect any pillars, lamps and other works, and do all other acts which shall from time to time be necessary for supplying gas within the limits of the said city, doing as little damage as may be in the execution of the powers hereby granted, and making compensation for any damage which may be done in the execution of such powers.

9. Nothing herein contained shall authorize or empower the Company to lay down or place any pipe or other works into, through, or against any building or any land not dedicated to public use, without the consent of the owner or occupiers thereof.

10. Before the Company proceed to open or break up any street, bridge, sewer, drain or tunnel, they shall give to the Board of Works, or other person or persons under whose control or management the same may be, notice in writing of their intention to open or break up the same not less than three clear days before beginning such work, excepting in cases of emergency arising from defects in any of the pipes or other works, and then as soon as is possible after the beginning of the work or the necessity for the same shall have arisen.

11. When the Company open or break up the road or pavement of any street or bridge, or any sewer, drain, or tunnel, they shall with all convenient speed complete the work for which the same shall be broken up, and shall fill in the ground, reinstate and make good the road or pavement, or the sewer, drain or tunnel so opened or broken up, and carry away the rubbish occasioned thereby, and shall at all times, whilst any such road or pavement shall be opened or broken up, cause the same to be fenced and guarded, and shall cause a light, sufficient for the warning of passengers, to be set up and maintained against or near such road or pavement where the same shall be opened or broken up, every night during which the same shall be continued open or broken up, and shall replace the road or pavement which has been so broken up, and make the same in as good state of repair as before.

12. The Company may from time to time enter into any contract with any person or corporation for lighting or supplying with gas any public or private building, or the streets of the said city, or for providing any person with pipes, burners, meters and lamps, and for the repair thereof; and the Company may, save as hereinbefore mentioned, let for hire any meter for ascertaining the quantity of gas consumed or supplied, and any fittings within any building for gas, for such remuneration in money as shall be agreed upon between the Company and any person or corporation to whom the same may be so let.

13. The clerk, engineer, or other officer duly appointed for the purpose by the Company may, at all reasonable times, enter any building or place lighted with gas supplied by the Company in order to inspect the meter, fittings and works, for regulating the supply of gas, and for the purpose of ascertaining the quantity of gas consumed or supplied: Provided that the Company shall publicly exhibit and keep exhibited in their office the names of all persons appointed to enter and inspect as aforesaid.

14. This by-law may be cited as the "New Westminster Gas Company's By-Law, 1886."

By-law read the third time and finally passed by the Municipality Council the twenty-fourth day of February A. D. 1886.

Reconsidered and adopted and the seal of the Corporation appended hereto this first day of March A. D. 1886.
